

Загальна інструкція з реєстрації у Scopus

1. To create a Scopus account, at the top right corner on the [Scopus homepage](#), select Create account.

Create account

Sign in

2. Enter your LSU email and the other fields requested in the registration screen, and click on Register. You will receive an email confirmation link. To complete your registration, click the Verify email address box on the email verification screen.

3. Once you have created a Scopus profile, sign in with your email and password to access the personalized features. Having a Scopus account will allow you to save searches, create alerts, and use the other personalized features.

- A.** Register for and log into Scopus to take advantage of a range of personalized features.
- B.** 'Saved lists' allows you to rename, edit, delete, add to or export your saved lists.
- C.** 'Saved searches' allows you to rename, edit, delete, combine or set an alert for saved searches. You can also run a saved search to view the results since the search was last run.
- D.** 'Alerts' allows you to edit, delete or change the status of your alerts. You can also check for new results based upon the date that the alert was created.
- E.** 'Export preferences' allows you to choose a preferred file type or reference management tool when exporting documents.
- F.** 'Requests (Dashboard)' links to your personal dashboard, where you can view and manage your Author Feedback correction requests; your Institution Profile Wizard correction requests and your Scopus support requests.
- G.** The 'My Elsevier' section allows you to manage your Elsevier account details and your privacy settings.
